

Your Pedigree

The simplest way to start your research of your own family tree is to write down what you know and sort out what you do not know.

The following pages give you a place to add the children of all these parents. You may find that you need to contact relatives for help. Please share this document to help them out. Let them know what you are doing and about the fabulous FMS Family Tree that you will have when the research is done.

**Remember no family tree is ever complete. It is always evolving. FMS Family Trees includes a round of changes with every Poster Order for 1 year. After one year it will be a minimal cost.
